Erratum: In the abstract (p. 312 above) of Professor Wm. A. Locy's paper before the American Morphological Society, 'New Facts Regarding the Development of the Olfactory Nerve,' the first sentence should read: 'The early embryonic history of the olfactory nerve is very imperfectly known,' instead of 'is known,' and the closing sentence should read: 'It was also shown to persist in the adult,' instead of 'to perish in the adult.' Credit should also be given to the Elizabeth Thompson Science Fund for providing the material upon which the research was conducted.
